

CHENNAI, India – Aug, 2012 – Vanuston Intelligence, a fast growing software and business solution company, we are proud to announced to launching MEDEIL Free edition for retail pharmacies across globe, our primary aim to introduce MEDEIL free edition to initiate more computerised retail pharmacy stores.

As a niche business solution provider, we are addressing the need of the hour to computerize retail pharmacies across India and create an awareness of a pharmacy management system to avoid manual errors, help anti-counterfeiting, manage expired drugs, improve operations and support patient safety. This no-cost version of its flagship pharmacy management system makes it easy for low investment retail pharmacies and small businesses in semi urban and rural India pharmacies can use MEDEIL without a large investment and budget to easily handling their inventory, sales, finance, CRM, and Reports

MEDEIL Free Edition enables anyone to easily manage their business, it help pharmacist to serve more to their customers, effectively managing stocks, and auto refill sales, and purchase, email and SMS alert system integrated, banned drug alerts, fast and slow moving product information.

“Today, we are announcing a major new product launch for MEDEIL Free edition designed to make more profitable retail pharmacy business available to everyone in both their professional and personal lives,” said Anandanatarajan, CEO, Vanuston. “We want to provide easy access to free pharmacy software tool backed by world-class customer service.”

MEDEIL launched on 27-june-2011 with around 2000 satisfied MEDEIL users in India, Pakistan, Philippines, Ghana, Macedonia, Sri Lanka, Thailand, Colombia, Mexico, Afghanistan, Sudan, Egypt, Myanmar, Canada, Cameroon, Mexico, Nicaragua, Nigeria, and USA.

MEDEIL Free Edition includes:

- Supports sale of over the counter, prescription items and FMCG products
- Handles return & refund of sold items
- Manages, tracks, and sends alerts on expiry dates
- Efficient supplier/distributor management with automatic reorder indicators
- Monitors credit history of customers and send reminder messages for product promotions/delivery
- Role and user based security and access rights
- Limited well-formatted readymade reports

We greatly appreciate your solicitation to join hands with us and support this initiative for the well-being of the Indian Retail Pharmacy Ecosystem. For more information about Medeil please visit us www.medeil.com
